Ezyload Trolley

Here at RFG we have designed a trolley to take the backache out of moving your heavy reels of material around. It is simple and easy to use. The trolley can also be used to dispense whatever is on your reel. In four easy steps you will have your reel loaded and ready to go, no back stress.

The trolley is capable of handling reels that are :

- Width : 500mm
- Diameter : 600mm
- Center : 35mm
